

Remarks

Claims 30 and 32-34 are pending in this application.

Claim 30 has been amended to (a) limit the invention to use of the indicated mixture as the only termiticidally active ingredients in the composition and (b) to indicate that the termiticide composition is dispersed in an aqueous medium. Support for the reference to an aqueous medium is found, for example, at page 3, line 22 through page 4, line 13 of the specification.

It is believed that these amendments clearly define the invention; distinguish it from the prior art and should place the claims in condition for allowance. If the Examiner feels that a phone call to discuss these amendments would be useful, he is requested to contact Applicant's attorney at the number below.

Respectfully submitted,

November 15, 2011
